Select the Best Betts Net For Your Purpose

Cast netting is one of the oldest methods of fishing, shrimping or catching bait. When selecting a net, you should determine its use:

1. What do I want to catch (size of mesh and net)
2. How deep is the water (weight of net)
3. The length of net (radius) is related to water depth, kind of bait/shrimp, and speed of bait

Lead Weights - 1.0+ lb. per ft.

Our research confirms that sunlight reflection on a clear mono net, acts like a mirror that causes glare and shadows, which spooks the bait instantly. Therefore, we designed a NO SPOOK net that is almost invisible in and out of the water. It is the only net that has ever been made with camouflage colors in the netting.

Deep Hole Cast Nets

Durable webbing is sewn into the net to last for the life of the net.

Made with Webbing

- Holds the net open better and longer for deeper targets.
- Made as part of the original net when the net is made, not an add-on feature.
- Last as long as the net.
- True woven webbing sewn to the net.
- Very durable compared to tape.
- All nets have extra long hand line.
- Packed in heavy vinyl bag with webbing shown to increase consumer visibility.

Cast a Legend**

The Morada Net Series

Born in the Keys by a legend known simply as Frank.

Designed & constructed to create a bond between a man & his net.

Owning a Morada net simply means when your hand pushes off the dock in the morning as you head out, the last thing on your mind is worrying about the performance of your net.

We do not know a way to make a better net. We put everything we know into its design.

No Net has ever had more spread!

Great Warranty!

Morada quality backed by an industry leading warranty. If the net ever rips, tears or breaks we will replace the net for 50% of the MRSP

Fits in one hand!

Blended Dual Color Double Selvage

35 ft. Water Color Blended Hand Line

Extra Large Panels and legendary design make the Morada Series perform better than any other net on the market

Features

Six Panel "Frank the Net" Design

The panels are cut to exact size in length and width based on the legendary custom design of Frank the Net with an extra 6" of netting sewn in to allow Morada nets to achieve more spread. When compared to other nets Morada achieves an extra 8-12" of spread.

Lead Weights

1.60 lb. or 1.30 lb per ft. of lead. Small marble weights tied at exact measurements ensures net opens and closes uniformly, no lost bait, and enough space so user can still use mouth method. Long weights tied on large mesh (1", 5/8") ensures no tangles. Super fast sink rate.

Netting

Morada netting combines strength and softness to find the perfect balance. Constructed out of a premium high grade monofilament. Soft netting fits nicely in one hand when net is fully loaded with a fast sink rate. Strong netting rated to pull in large bait loads.

Lead Line

Tightly woven with color that blends with the water. Knotted together and crimped to make sure lead line holds together. Tied with a secondary lead line interwoven for added strength and minimal wear at stress points.

Double Selvage

Beautiful water blended dual color double selvage - 3 rows at horn and lead line for ultimate strength at stress points.

Horn & Swivel

Horn made to correct size to prevent losing bait but large enough for easy movement of braille lines for ultimate spread. Very strong saltwater quality bronzed swivel rated to pull in full bait loads.

Braille Lines & Morada Tubing Braille Divider

Premium mono strong braille lines tied every 25" for balanced performance when closed. Minimizes loss of bait and improves net closing. Unique to Morada brailles are divided with a tubing for easy separation and less tangles.

WE ASKED. THEY ANSWERED.
REAL PEOPLE - REAL TESTIMONIALS!

Jesse F. - "Pancakes everytime! The net feels great and if it could make its own momentum I believe it would throw itself. I've liked every Betts net I've ever thrown, but this one is my favorite and I cannot wait to wrap it around some shad & menhaden!
Thanks for a great product!"

Gregory B - "My first cast netted a full day worth of bait! The spread was nearly perfect and the weight allowed the net to drop quickly on the bait. One good cast and we were headed offshore. Even though mine is a 10 foot net I never feel like I have to deal with a lot of bulk. Looking forward to many more casts and great fishing trips!"

Chris R. - "A friend of mine has been teaching me how to throw, he and his family are all commercial and charter boat captains, he loves the net and is thinking of buying one. I have found this net much easier to open than ones I've tried to learn with in the past."

Manfred G. - " I'm new to cast nets so throwing an 8' net was a bit intimidating. I have thrown less expensive 5 footers but this was a leap. I was impressed with the workmanship of the Morada, from the double selvage to the hand crafted lead line. Just a few throws and I was opening the net well for a beginner and so happy I made the investment in a great net. Thank you for the fantastic net."

Richard F. - "I've used numerous other nets and I can tell this is real quality"
